

Revising Index Methodology

In order to enhance the index investability, Shenzhen Securities Information Co., Ltd. decides to revise existing index methodology. The details are as follows:

SZSE ChiNext Artificial Intelligence Index: Adjust the weighting method to “The weight of individual constituent in the fields of computing and network devices, data and software services no more than 15%, the weight of individual constituent in other fields no more than 3%, and the total weight of the top 5 constituents no more than 60%”.

SZSE Computing Infrastructure Index: (1) Change the index short name to SZSECIX, while the index name and code remain unchanged; (2) Modify the index universe to “Company business classified as computing, network, storage, operation and maintenance, and other fields related to computing infrastructure”; (3) Revise the number of constituents adjusted to “The number of new constituents in each periodic review shall not exceed 20% of the total number of index constituents”; (4) Adjust the weighting method to “The weight of individual constituent no more than 15% and the total weight of the top 5 constituents no more than 60% in each periodic review”.

The revision will be implemented on December 15, 2025. For more details, please refer to CNI Index website (www.cnindex.com.cn).
