

Revising Index Methodology

In order to enhance the index investability, Shenzhen Securities Information Co., Ltd. decides to revise existing index methodology. The details are as follows:

CNI Energy Sustainable Development Index: (1) Change the index code to 980133, while the index name and short name will be changed to CNI Energy Sustainable Index and CNIEESG; (2) Modify the index universe to “Company business classified as oil and gas, coal, traditional energy power generation, and new energy power generation”; (3) Revise the selection method to “Remove bottom 20% securities by daily average trading value or daily average total market cap within the latest 6 months, then select top 50 stocks with the highest ESG score as index constituents”; (4) Revise the periodic review rule to “The index is reviewed semi-annually”. Add buffer rule and limit of the number of new constituents; (5) Adjust the weighting method to “Set the weight of individual constituent no more than 15% and the total weight of the top 5 constituents no more than 60% in each periodic review”.

The revision will be implemented on December 25, 2025. For more details, please refer to CNI Index website (www.cnindex.com.cn).
